Your Wellness Solution Provider

Your Wellness Solution Provider

INTRODUCTION

In September 2017, Impulse (Qingdao) Health Tech Co., Ltd. did IPO successfully in Shenzhen stock market (Stock Code: 002899). It achieved breakthrough in capital market and Impulse became the first fitness equipment unit in China. It brought more financial support to R&D and manufacture of Impulse.

Our products cover both business and home user core demand. We provide innovative and high-quality indoor and outdoor products, including cardio equipment, strength equipment, functional training and rehabilitation training equipments, also with special ball field facilities and ice/snow training facilities.

The forward-looking design concept and user demand focused are the features of Impulse product development. We are committed to keep providing the desired products and services at a sincere price, and the products have been sold across more than 200 countries and regions, and created global marketing and after-sale systems.

Impulse is a leading supplier in health industry in China. A perfect product and service system has been built in the fields of fitness equipment R&D, manufacturing, marketing and sales, club operation and health management.

We believe that the trust of customers comes from our pursuit of product excellence and exploration of customer needs. Therefore, Impulse is going to continue following the concept of customer first and quality priority in order to serve our business partners, and become reliable fitness expert trusted by global customers.

CARDIO

A woman in a grey sports bra and leggings is running on a treadmill in a modern gym. The gym has a curved wooden ceiling and large windows. Other people are visible running on treadmills in the background. The treadmill has a digital display and a water bottle holder.

Impulse Touch Screen Operation System

1920x1080 resolution brings high definition TV contents meeting SMPTE (Society of Motion Picture and Television Engineers) standard.

A Quad-core 1.8Ghz processor with 2G memory provides powerful computing capability par with personal computer to make sure you gain unparalleled experience whenever interactive with treadmill, enjoy video or surfing internet.

Trainers could connect to internet by turning this treadmill into a terminal of information world. This machine would accompany with you to advancing with the era.

For club owners, cable TV (ATSC or DVB-T2/T or DVB-C or ISDB supported) and Virtual Scenery integrated in the OS would create better entertainment environment for trainers.

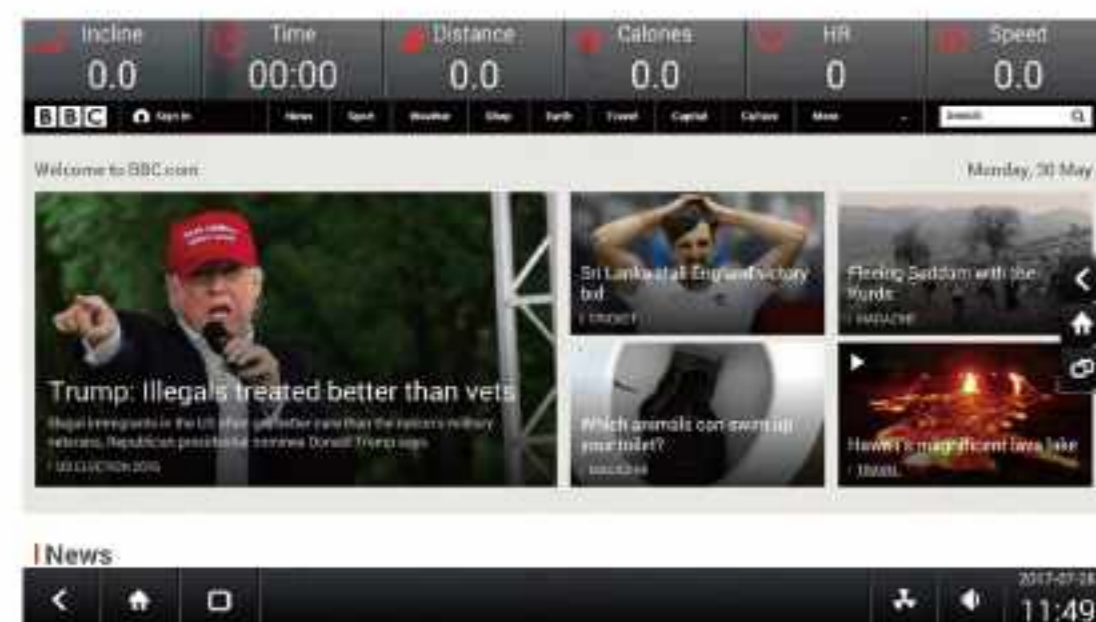

More fun, more renewals, more possibility to make decisions.

Well designed quick start page combine the key parameters and interfaces to the next level, as well as the most important quick-start button. Whatever users want to know necessary information, make advanced settings, or exercise directly, this page is enough.

Exercise Program and key parameters at a glance. The button layout is extremely convenient, what you see is what you get.

We recognize the importance of maintaining online for you, through the system comes with a browser, you will not miss any news in workout.

Providing various entertainment experiences, including video and music play. Virtual Scene provides various sites all over the world for trainers to enjoy while exercising.

Impulse RT950 VIRTUAL ACTIVE UPDATES

Create rich scenes and gives users the feel of real running experience, while the basic workouts allow you to set your own pace and enjoy the scenery.

Designed to enhance your cardie workout. Shot in beautiful locations around the world, Virtual Active transports you to iconic trails, roads, cities, and landscapes, turning indoor exercise into an outdoor adventure.

Updated Virtual Active provides more scenes such as Tibet and beautiful flats and mountains. We will explore much more virtual scenes later and keep them updated.

The beautiful forward motion, where you enjoy the scenery at your own pace, high-definition footage speeds up or slows down to match the user's pace.

The ups and downs of terrain that displayed by Virtual Scene is related to the incline of treadmill. Incline varies to match the terrain accordingly.

AC4000 TREADMILL

The 18.5-inch large console created by the new design language features convenient operation and entertainment functions. The 60 degrees tilted panel provides the best viewing Angle and comfortable experience.

50x185x2.5mm oversized column is adopted to ensure the stability of the console during movement, when the speed reaches 20km/h, the vibration amplitude of the motor is less than 0.003mm.

The motor cover adopts a flat design to make it more integrated with the frame of the running platform and more concise and hardcore in appearance. On this basis, the column cover is added and the lower end of the column is wrapped in the motor cover to make the column and running platform perfectly integrated.

Considering the safety of the product, the manufacturing process of the edge strip is upgraded from PVC extrusion to ABS injection molding, which increased the friction coefficient and enhanced the anti-slip performance.

AC2990 TREADMILL

The 3D fixed upright can easily eliminate the abnormal sound and console shaking along with the running. At the same time, move the upright to the front can create a wide running environment and eliminate visual obstacles.

Taking full consideration of the commercial long running situation, the dustproof heat dissipation holes are designed in the console and the motor cover to dissipate heat from the electrical part and prevent the aging problem.

The platform structure was upgraded on the basis of AC2970 to improve the stability and safety. The replacement of a more advanced console surface material is all about enhancing the product's durability.

Ergonomic handle design; more quick buttons and a larger phone/tablet holder for a more comfortable user experience.

HSR007 SKI & ROW Multiple Training Machine

MARS (Magnetic & Air Resistance System) allows users to control their exertion and resistance at all time. The MARS system with 20 settings so you can change the resistance to suit your performance.

Adjustable pedals and ergonomic handle bars accommodate different users' need. The sturdy legs provide users a comfortable and stable movement.

Heart rate telemetry system helps users to monitor intensity of the workout. Your exercise data can be easily synchronized to Wahoo devices via Bluetooth. Adjustable angle of console provides users with the best viewing experience in using condition.

High intensity cords achieve the maximum strength test up to 1,000,000 times ensuring the high quality of products.

Ergonomic seat enables users to train comfortably. Light-weight aluminum and stainless steel made slide rail allows users to train intensively and provide a low maintenance.

Skiing bar made of TPR materials allows for a comfortable grab feeling.

The transport wheels make it easy to place to a workout space.

A folding lock-up system ensures safety in daily using condition.

A folded Ski&Row saves 48% floor space comparing with rower form.

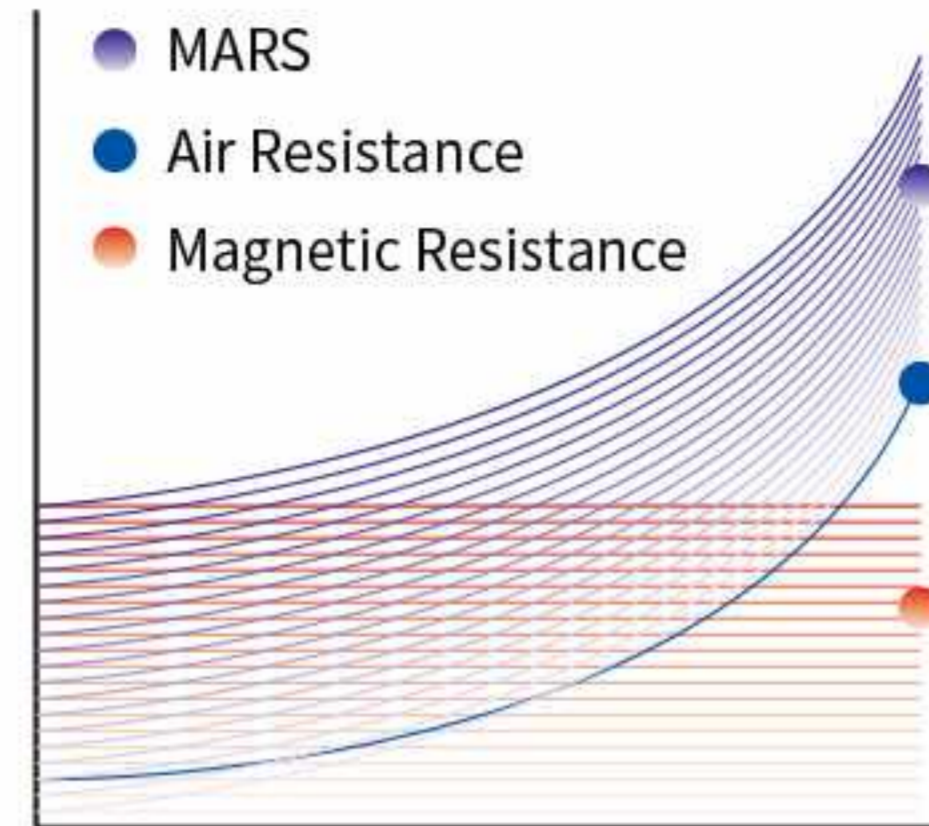

The SKI&ROW can be used in standing form, which provides upper body training and core training. Optional foot straps help users to train lower body and complete the workout shown below:

HSR007

● MARS (Magnetic & Air Resistance System)

SKI & ROW Multiple Training Machine MARS (Magnetic & Air Resistance System) add a further resistance to the air resistance. The MARS system has 20 precise resistance levels. Through the console, users can easily adjust the resistance at all time.

Model	HSR007
Certification	CE

● Space Saving Design

Thanks to the innovative design, the folded SKI & ROW Multiple Training Machine saves 48% space comparing with rowing form. Therefore, the SKI & ROW Multiple Training Machine as a commercial grade equipment is also suitable for the small fitness studio or residential.

HB005 ULTRA BIKE

The resistance is delivered by fan, which is driven by power and speed pedal along with two handles that move back and forth. Users are able to determine intensity level and resistance.

26 ABS blades molded into one piece which makes it stabilized and more quiet than traditional steel blades in using condition.

The workout data can be synchronized to your smart devices via Bluetooth or ANT+. Then you can track the data with 3rd party applications which manage your training more scientific. It helps users to make a more reasonable training plan.

Consider electroplated steel gets rust easily, the seat support and pedals of ULTRA BIKE is made of aluminum alloy, which is less prone to corrosion, helping to provide long service life.

Compared to ordinary ULTRA BIKE with its chain always sways and bumps and needs scheduled maintenance. ULTRA BIKE's V-Belt drive provides smooth and consistent ride without extra maintenance or high cost.

ULTRA BIKE enables users to do upper body training, lower body training and total body training. It helps to improve your body coordination and meets training demands of various people.

Magnetic brake system provides more stable resistance, and more convenient adjustment.

V structure, 164mm Q-FACTOR allows ideal riding position

Seat and handles are adjustable horizontally and vertically. Aluminum post and newly designed knob allows convenient adjustment

Dual cup holders for intense training

Rear aluminum flywheel is waterproof. The plastic edge shroud ensures riding safety.

Dual-sided pedals allow riders to wear either cycling or athletic shoes.

Maintenance-free belt offers more quiet and smoothly riding experience.

Larger main frame, over-sized axis and pedal shaft ensure reliable quality.

Tension unit for stretch before and after riding

Handlebar
Vertically adjustable with nice hand feeling. Multiple handle positions can meeting various training needs.

Brake
Reliable Nylon nob brake. Coated steel cup holder is easy to access.

Seat
Precision casting seat part combined with chromium-plated steel adjusting tube make it easy to adjust position. Ergonomic seat pad provides comfortable training.

Resistance
Long-lasting pedals and classic fly wheel driving system brings nice training experience to users.

Frame
Double-oval tube and anti-rust steel frame makes extraordinary appearance.

EXOFORM

EXOFORM >>>

Uniformly low profile at 1492mm is designed by American team. Translucent shroud at thickness 3.2mm with smooth pattern is in injection molding, which designed elegantly and ensures ultra durability and non-deformation

Build-in console, which is well designed by American UI team, displays reps and time

The upright tubes are with special tube at size 72.8×141.7×3mm, and the functional part with race track tube at size 40×133×3mm. Tubes apply double powder-coated & painting process which ensure high-quality and ultra durability

The steel guide rod (diameter:19mm) is anti-corrosion coated and polished which ensures smoothly travel and rust-proof

Friendly designed iPad and bottle holders are separated to meet various requirement

The 5LBS incremental weight is to meet users requirement

Weight stack: 19mm full steel plate. Weight options-160/200/235/295Lbs

All the hardware parts exposed are nickel plated or stainless steel. The NBK bearing is applied

Meet EN957 safety regulation

Ergonomically designed handle bars, which is patented, are with TPU material and aluminium grip ring. The concise design offers comfort and safety

Ergonomically designed upholstery is with PU foam which offers comfort and safety protection

Belt and cable driving system are both applied. Self-lubricate American Loss cable with nylon-coated 12 complex fiber ensures service life 300,000 times. The belt is with steel wire embedded which ensures ultra durability and long lifetime

With spiral spring assistance system, the patented 3-linkage seat adjustment is concisely designed, cost-saving and offers easy installment

All dynamic components are shielded for safety purpose

Gas spring for resetting

* COLOR OPTIONAL.

ARM CURL

1. Select an appropriate weight.
2. Adjust seat and bar for desired position.
3. Select desired start-up position, hold handle and sit with a neutral posture.
4. Slowly return to the starting position.

IT95 Line >>>

Tube: 3mm tube in main frame and movement parts. U-frame uses PR95x81.1x3 tube and functional parts use RT50x100

Plastic part: Injection molding for better quality

Painting: Double coated surface treatment

Incremental weight (optional): 5lbs for smaller adjustment

Weight stack: 19mm full steel plate. Weight options - 160/200/235/295Lbs

Easy to enter and exit the machine and able to adjust when in sitting position

Conform with EN957. Passed 300,000 times fatigue test and 100kg stable test

Handle: Patented ergonomic design with TPU material

Standard metal part: Nickel plated or stainless steel for better appearance and quality

Diverging motion structure allows the arm training simultaneously and alternately

Pad: Double stitch and add protect cover on the back. Various colors to choose from

Pulley: Lathed pulley with less tolerance

Cable: USA imported cable which passed more than 250 thousand times test

Bearing: Reliable Taiwan brand

* COLOR OPTIONAL.

PL Line >>>

Easy to use, neat appearance, the PL line is a high quality dual/multi functional machines Light commercial/commercial series. This PL line is Impulse dual/multi functional line. The user-friendly design makes working out more simple, efficient, comfortable and satisfying.

Instructive - simple, step-by-step instructions and training tips help users get the most out of their exercise.

Aircraft spec 5mm American LOOS cable with a 2,000 lb breaking strength. End fittings tested to 250,000 cycles using full weight stack.

Easy-to-use, minimal adjustments and pre-stretch features allow for optimal exercise positions.

Glass fiber reinforced nylon pulleys with deep V-groove provides secure cable seating and fluid bearing rotation.

Compact - space efficient design requires minimal floor space.

Shroud is applied to protect the equipment or the possible injury during operation.

Tubing: 2.5 mm to 2.75mm. square tube differ into any types, from 30x60mm to 50x100mm, electro-welded to maximum integrity.

Pad total thickness is 70mm.

Color: metallic silver gray (Other colors are optional based on customer requirements)

IF93 >>>

These simple, clean-lines, selectorized series specially designed for entry level small clubs and institutional applications. It offers a complete functional package, is inexpensive to own and is easy to maintain. It matches up beautifully with the benches and racks of the IF line.

The clear and precise instructions and training tips are great for individuals who is new to strength training and help users to build targeted muscle .

Specially designed cup holder is perfectly integrated with cage, making it simple and generous.

The translucent shroud with ABS materials (optional front shroud) is durable and wear resisting. The main plastic parts are made using injection molding that help to provide steady quality.

The upright tubing thickness of 2.5mm and the functional parts with rectangular tube at size of 50×100×2.5mm, which make IF93 stronger and more powerful.

The whole series are adopted with the equivalent cage height of 1530mm, which help to create a bright training environment of fitness club.

All pulleys are adopted with high quality bearings which ensure smooth movement.

Ergonomic seat cushion, chest and back pad are made of polymer materials. The specially designed pads have different angles, which meet various training requirements.

Ergonomically designed handle bars are made of TPV materials, which make your garb more comfortable and safety. It combines with aluminum end cap reflecting high-end taste.

The main frame is coated with materials that environmental friendly, which helps to improve products quality and provide with good scratching and corrosion resistance.

Designed with stainless steel seat adjustment that provides a longer service life, made it easy to adjust and look beautiful.

* THE FRONT SHROUD IS OPTIONAL.

Jungle >> >

Multiple accessory racks enable user to put stuff and easy of access.

Shroud is made of translucent injection molding ABS which make the machine safer and good-looking.

Use dual-pulley for high rowing and low rowing. Increase diversity of motion.

Switch from high rowing to low rowing which accomodates different sizes of training field yet saving space either.

Larger distance between left and right upright accomodates a variety of users needs. No interference for users during exercise. (distance between sliding rail is 2680mm)

Multi-handle grips accomodate a variety of user training demands

Thanks to 1785mm sliderail, the hand grips could be adjusted from 1 to 36 degree. It helps to train almost total body muscle groups.

Use stainless steel roller tubing that prevent machine from wearing and corrosion.

Larger size of groundtubing strengthen stablization of machine

Perfect training placard enable detailed and professional guide to workout

Assistance handle bar: Easy hand grips help user keeping balance in exercise and enable more strength training.

Use 3.0mm thickness tube and spray powder coated. It has enhanced corrosion resistance and better appearance.

A roller type of pulley enables glide smooth and easy to adjust

The height of groundpads are adjustable which guarantees the stabilization of machine.

ES3000 3 STACK MULTI-STATION

Dual overhead pulleys with hand straps allows for diverging motions.

3-stack stations allow multiple users to workout simultaneously.

Bottle holders are located on both sides of shrouds for convenient use.

Wide grip pull-down bar connected to two overhead pulleys for further more smooth workouts.

Adjustable foam rollers act as a leg hold-down during the pull-down workout to meet users at different height.

Four-bar linkage design offers easy adjustable seat for shifting the workouts between lat pull and lower row.

Product Dimension (L×W×H)	2705x2455x2148(mm) 106.50x96.65x84.57(in)
Product Weight	573kg
Stacks Weight	91kgx3 (200lbsx3)
OPT Weight	26.5kg

ES3000 OPT HI-LO PULLEY ATTACHMENT

Quick installation, shares the stack with lat pull for saving space and cost.

31 vertical pulley positions for a large variety of different exercises.

Excellent structural design, easy & quick adjustment offers dynamic workout like chest press, incline press and shoulder press which meet various muscle groups training.

Adjustable handle is conveniently located for easy access.

Excellent structural design, easy & quick adjustment seat is for prone leg curls or leg extension exercises which satisfy various muscle groups.

ES9030 DUAL ADJUSTABLE PULLEY ES7011 BENCH

Chin-up/pull-up bar with ergonomic bends for regular grip, wide grip and reverse grip exercises.

31 vertical pulley positions for a large variety of different exercises.

With accessories as lat strap, long bar retractable strap, leg ext/curl strap and tricep rope, DAP offers users dynamic and various workouts.

Multi-position bench offers 5 upright/incline positions for back pad and 3 position for seat, which satisfies various workout experience.

The over-sized feet would stabilize the users during certain workouts like tricep extension.

Conveniently located iPad holder allows user to watch online training videos during the workouts, over-sized bottle holder is within reach.

Fold away bench for easy storage and space saving

RE-LIFE

Hydraulic Strength Training Equipment

RL Line >>>

STRENGTH

RL

In the face of such a busy pace of life, Impulse timely put forward the concept of 'light fitness', and explored how to exercise to 'win more with less effort', integrate exercise into your daily life and make it a wonderful enjoyment. Unlike conventional strength equipment, 'light fitness tends to listen to the voice of the heart.

Impulse RE-LIFE light fitness series is tailored for the urban white-collar workers and young women who love sports, as well as small studios and community gyms. Impulse named the series after RE-LIFE implying that customers can regain the vitality of the body and rebuild the quality of life by using this series of products.

The RE-LIFE series complements any traditional fitness scenario, suitable for users from almost all ages and fitness levels.

8+X Flexible combinations, more possibilities

RE-LIFE series consists of 8 sets of hydraulic resistance training equipment which can be used for bidirectional constant speed operation and 1 set of stretching machine. 8 sets of hydraulic resistance training equipment can realize the function of 15 kinds of traditional strength equipment, and the stretching machine is helpful before and after exercise. Alternatively, depending on the user's needs, the stretching machine can be replaced with a BOSU ball for balance training, cardio pedals, or a HIIT SKI&ROW* or ULTRA BIKE*. Users of different ages and physical qualities can find their own training methods through the flexible combination of 8+X.

* SKI&ROW and ULTRA BIKE are products of Impulse.

Ultimate User Experience Design Driven Products Environment Friendly

The dual-position handle design ensures that the user always finds the perfect posture.

The selection of upholstery is soft, comfortable and elastic, making it more skin-friendly during training and reducing wear. The multifunctional holder allows you to take water cup or mobile phone at your fingertips.

Adjustable hydraulic resistance makes adjustment more refined with eye-catching knob design.

Concise modeling design can save half of the storage and transportation space compared with conventional equipment, the built-in transport wheel design makes it easier to move.

The resistance adapts itself and can stop the movement at any time to reduce the injury risk. In addition, the integrated stable adjusting device can easily adjust the horizontal stability of the product.

Optional painting and upholstery color.

SL Line >>>

Easy to use, neat appearance, the SL line is a high quality commercial plate loaded series. The user-friendly design makes working out more simple, efficient, comfortable and satisfying.

Tubing: thickness range from 2.5 mm to 3mm, 50mmx100mm tubing, electro-welded to maximum integrity.

Color: black and red (Other colors are optional based on customer requirements)

Finish: Electrostatic powder-coated and heat cured after adhesiveness enhancement pre-treatment for superior durability

Compact - space efficient design requires minimal floor space.

Pad total thickness is 70mm.

Easy-to-use, flexible adjustments allow for optimal exercise positions.

STRENGTH

SE

Half Rack and Power Rack are able to be connected left or right and extended infinitely, along with optional storage cart, help users to achieve their training goals by all in one combination. It also improves utilization of space.

76.2mm square tube with 4.5mm thickness to achieve a maximum training weight of 900lbs.

We upgrade the storage bars from PVC to stainless steel, which is more high-end and ensures rust protection and service life. Meanwhile, the slightly inclined storage bars also ensure the stability of weight plate storage.

The use of thickened steel increases the stability of the product.

STERLING ELITE is perfect for heavy-user facilities; it not only can help user with training base to go to the next level, but also helps athletes achieve the results they seek in ways of more professional, more functional and customizable.

15/16 adjustable height positions(535mm~2057mm/495mm~2018mm from the ground) for J hooks and safety bumpers.

The ABS safety bar is updated to TPU material, which greatly extends the service life due to its wear resistance, and the TPU has better vibration absorption also provides a better use experience.

A rich variety of functionality and professional optional accessories provide numerous training opportunities for a wide range of exercisers and also allow training stadium to collect easily in the idle condition.

The platform is 50 millimeters thick, which is made by hardwood floor plus rubber mat, and fixed with all metal frame to ensure that the platform is firm and reliable.

ZONE360

Group Functional Training Solutions

H-ZONE

X-ZONE

I-ZONE

With years of experience in R&D and design, Impulse developed the brand new H-ZONE group functional station. It was developed on the concept of Modularity, Flexibility, Versatility and Space Efficient, which enables to make free combination between different station and attachments according to user demands and space requirements.

H-ZONE

HIIT Unlimited Combination Functional Training

It can make combinations of different stations and attachments according to the requirement of space.

Free Rotation

Enhanced Wall Connector

Space is an extremely valuable resource for the club. The three dimensional space design of the H-ZONE ensures the maximum use of space.

It breaks the limited space with infinite possibilities and creates more inspirations and possibilities for users.

STRETCHING STATION

IZ7001

PRODUCT DIMENSION (L×W×H)	683×1655×2364 (mm) 26.9×65.2×93.1 (in)
PRODUCT WEIGHT	126.6 Kg / 279 Lbs
40'	57 Sets

REBOUNDER STATION

IZ7003

PRODUCT DIMENSION (L×W×H)	1072×1655×2340 (mm) 42.2×65.2×92.1 (in)
PRODUCT WEIGHT	153.6 Kg / 339 Lbs
40'	61 Sets

POWER RACK STATION

IZ7004

PRODUCT DIMENSION (L×W×H)	1409×1747×2443 (mm) 55.5×68.8×96.2 (in)
PRODUCT WEIGHT	167 Kg / 368 Lbs
40'	120 Sets

BOXING STATION

IZ7002

PRODUCT DIMENSION (L×W×H)	1126×1655×2377 (mm) 43.3×65.2×93.6 (in)
PRODUCT WEIGHT	135.9 Kg / 300 Lbs
40'	57 Sets

DAP STATION

IZ7005

PRODUCT DIMENSION (L×W×H)	957×2386×2365 (mm) 37.7×93.9×93.1 (in)
PRODUCT WEIGHT	380.4 Kg / 839 Lbs
40'	56 Sets

STAIR-1

IZ7008

PRODUCT DIMENSION (L×W×H)	3510×1010×205 (mm) 138.2×40×8.1 (in)
PRODUCT WEIGHT	43 Kg / 94.8 Lbs
40'	60 Sets

STAIR-3(for O-Shape)

IZ7014

PRODUCT DIMENSION (L×W×H)	2435×1207×205 (mm) 95.9×47.5×8 (in)
PRODUCT WEIGHT	35.6 Kg / 78.5 Lbs

CONNECTOR

IZ7006

PRODUCT DIMENSION (L×W×H)	1528×178×205 (mm) 60.2×7×8.1 (in)
PRODUCT WEIGHT	13.9 Kg / 30.6 Lbs
40'	660 Sets

STAIR-4(for H-Shape)

IZ7015

PRODUCT DIMENSION (L×W×H)	2406×1704×205 (mm) 94.7×67.1×8 (in)
PRODUCT WEIGHT	35.6 Kg / 78.5 Lbs

STAIR-2

IZ7007

PRODUCT DIMENSION (L×W×H)	2850×1117×204 (mm) 112.2×44×8 (in)
PRODUCT WEIGHT	38.3 Kg / 84.5 Lbs
40'	78 Sets

PIVOT

IZ7012

PRODUCT DIMENSION (L×W×H)	530.5×126×178 (mm) 20.9×5×7 (in)
PRODUCT WEIGHT	5.9 Kg / 13 Lbs
40'	5083 Sets

DIP ATTACHMENT

IZ7010

PRODUCT DIMENSION (L×W×H)	940×624×289 (mm) 37×24.6×11.4 (in)
PRODUCT WEIGHT	12.6 Kg / 28 Lbs
40'	245 Sets

S-JOINT

IZ7011

PRODUCT DIMENSION (L×W×H)	178×100×50 (mm) 7×3.9×2 (in)
PRODUCT WEIGHT	2.6 Kg / 5.7 Lbs
40'	13066 Sets

STEP ATTACHMENT

IZ7009

PRODUCT DIMENSION (L×W×H)	749×650×289 (mm) 29.5×25.6×11.4 (in)
PRODUCT WEIGHT	16.3 Kg / 36 Lbs
40'	315 Sets

X-ZONE

Elite Group Functional Training Stations

X-zone is advanced and functional group training system which developed and updated from “H” shaped station of I-Zone.

- **Advancements:** integrated with Crossfit training method that can improve physical strength, explosive, speed, coordination and flexibility with X-zone.
